

**\$549** Mimio Interactive

The mimio Bar and Stylus know what's displayed on the whiteboard, letting you control everything that's on your PC or MAC - including web sites, video, audio, and interactive Flash files.

**\$210** Mimio Capture

The spontaneous ideas that you record on your whiteboard, and the vital learning moments that result, used to have a short life span - until the next class began. Now you can preserve them electronically with the mimio Capture Kit.

**\$699** Mimio Interactive + Capture

Combining the mimio Interactive and mimio Capture gives you endless possibilities in the classroom.

Check out our website for updates or visit <http://www.computerhardwareinc.com/mimio/mimio-interactive/> for a demonstration.

**\$199** Mimio Wireless

When your classroom present physical challenges, the mimio Wireless option lets you operate your mimio Interactive system without a USB cable.

**\$399** Mimio Pad (Tablet)

Adding the mimio Pad wireless tablet to your mimio Interactive systems lets you and your students work together on interactive lessons, from any vantage point.
